2-Piece Mission

True two-piece Mission barrel tiles speak of history, security and luxury. With a simple, practical design that dates back to the Bronze Age, mission tiles have adorned the roofs of palaces, temples and the early missions in California.

2-Piece Mission tile is a perfect execution of a timeless tradition. Durable, colorfast and manufactured with the most modern methods and the highest standards, 2-Piece Mission tiles distinguish your home with unmatched beauty and elegance.

2-Piece Mission tile meets Grade 1 standards per ASTM C1167.

1-Piece “S” Tile

The sophisticated composition of one-piece “S” clay tile accents the curvature of the roof, creating a distinct, elegant dimensional color. The covers and pans of classic barrel tile are joined into a single, strong, efficient piece that radiates the traditional clay tile appeal.

US Tile® by Boral® clay tile is crafted with meticulous care. 1-Piece “S” Tile is designed to allow custom options such as boosting for that artisan inspired installation while saving time and cost, making clay tile beauty and value available at substantial savings.

1-Piece “S” Tile has been Class 3 hail rated by Architectural Testing Roof Covering Impact Certification Program: www.archtest.com.

Faux Mission

The “Faux Mission” installation technique gives architects, builders and homeowners the superior aesthetics of a traditional two-piece clay tile roof at an affordable price.

We carefully designed our 1-Piece “S” Tile and our traditional 2-Piece Mission tile profiles to fit together, allowing a custom installation that provides the aesthetics of a traditional two-piece tile while capturing the cost saving benefits of an 1-Piece “S” Tile. The 2-Piece Mission tile is installed at the eave where the details of the roof are most visible. The 1-Piece “S” Tile is then installed on the rest of the roof for a much quicker and easier installation than a traditional two-piece tile roof.

Technical Specifications

Profile	Size	Coverage	Installed Weight per Square	Pieces per Pallet	Squares per Pallet	Weight per Pallet	Birdstop	Size
 2-Piece Mission	18" x 7" - 8.5"	At 3" minimum headlap, 172 field tiles will cover approx. 100 square feet of roof area.	Approx: 1,000 lbs.	360	2.09	Approx: 2,150 lbs.		6.75" x 3.75"

NOTE: Select 2-Piece Mission meets Grade 1 standards per ASTM C1167.

 1-Piece "S" Tile	18" x 13"	At 3" minimum headlap, 88 field tiles will cover approx. 100 square feet of roof area.	Approx: 800 lbs.	252	2.86	Approx: 2,400 lbs.		6.75" x 2.625"
---	-----------	--	------------------	-----	------	--------------------	---	----------------

NOTE: 1-Piece "S" Tile is Class 3 Hail Rated product per FM4473 standards. Select 1-Piece "S" Tile meets Grade 1 standards per ASTM C1167.

NOTE: Please call Customer Service at 800.669.8453 or login to myBoral at www.BoralRoof.com to confirm product quantities and availability before arriving at the plant for pick up.

In the Class 3 hail test, 1-3/4 inch ice balls are shot at 104 feet per second (approx. 70 mph) impacting the tile. 1-Piece "S" Tile has been Class 3 hail rated by Architectural Testing Roof Covering Impact Certification Program: www.archtest.com.

For appropriate regions that experience full winter weather, select clay tiles meet Grade 1 standards per ASTM C1167.

Choose from one of our many cool roof rated tiles that will improve the energy efficiency by reflecting sunlight and heat away from your roof. When these are combined with our Elevated Batten System, they will provide reduced cooling costs and they may even qualify for local rebates. The Cool Roof Rating Council (CRRC) measures the "coolness" of a roof by determining a roof's solar reflectance (SR) and thermal emittance (TE). Both properties are rated on a scale from 0 to 1, where 1 is the most reflective or emissive. The CRRC measures these two properties for roofing products, both for the product's initial values and after three years of weather exposure. Boral Roofing manufactures some products that meet CRRC guidelines, allowing homeowners in some regions to receive utility rebates. Boral Roofing's products that are CRRC rated help reduce the heat island effect found in urban areas and in general, increases the overall energy efficiency of the building. For current Boral rated product listed on the CRRC website, please visit www.coolroofs.org.

Select US Tile® clay products meet or exceed Energy Star requirements. Visit www.energystar.gov for Boral certified roof products.

Recycled Content – percentage of pre-industrial content.

Front Cover: 1-Piece "S" Tile - Newport Blend and Palerno Blend
